

This year's PRESS provides a snapshot of on-going support to statistical development and major trends.

**\$470 M**

Support to statistics amounted to USD 470 million for 2014. This was on par with the USD 448 million commitments for 2013.

**0.25%**

The share of Official Development Assistance (ODA) dedicated to statistics was 0.25% in 2014, mirroring the similarly low level of 0.24% in 2013.

**\$141 M**

Demographic and social statistics received the most support (USD 141 million), followed by economic statistics (USD 128 million) and general and methodological issues (USD 104 million).

**72%**

The top five providers of development co-operation in statistics (Canada; European Commission/EUROSTAT; FAO of the United Nations; IMF; World Bank) provided 72% of total commitments in 2014.

Beneficiaries of aid to statistics in 2014
